

Evaluating Results of the Last Reprocessing Session

Name:

Date:

Global Evaluation:

“What has change in your life since our last reprocessing session? Any changes in symptoms, behaviors, things that use to trigger you, dreams, new thoughts, insights or information?”

Evaluation of last session’s Memory Targets:

“When you bring to mind the memory of:

what do you notice now? Any difference in how the memory looks or feels, or other memories come up from it?”

If the memory was a 0 SUDS at the end of the last session, double check the SUDS to see if anything else showed up since the last session.

“Bring the memory to mind now, (have them not their head when they have it in mind) how disturbing is it now as you think of it from 0 – 10?”

Suds:

If you completed more than one memory last session check each one.

“When you bring to mind the memory of:

what do you notice now? Any difference in how the memory looks or feels, or other memories come up from it?”

If the memory was a 0 SUDS at the end of the last session, double check the SUDS to see if anything else showed up since the last session.
